

Public Safety and General Government Committee of the Common Council

To allow public access, anyone may access a meeting by telephone, Zoom, and/or the City of Norwalk YouTube channel. Specific instructions and links can be found at

[Agendas | Norwalk, CT - Official Website \(norwalkct.org\)](#)

Members of the public can use a telephone to call in, attend, listen and comment during public participation. They will not be able to see any of the meeting participants. All participants are muted upon entering the meeting. **To speak, press * 9** on your phone to "raise your hand" electronically, **and then * 6 to unmute when called on** by the host of the meeting during the public comment section. Each meeting will use a unique Meeting/Webinar ID and may also have a passcode.

Upon written request not less than 24 hours prior to the meeting, a member of the public can request a physical location to attend this virtual meeting at City Hall. Such a member of the public will be provided access to a telephone so that they can attend the meeting in real time. The member of the public can call in, attend, listen and comment during the meeting. However, they will not be able to see any of the meeting participants. Each meeting will use a unique Meeting/Webinar ID and may have a password, which will be provided to the member of the public. The dial-in information can also be found in the table below.

Members of the public who wish to "view the meeting live" and/or provide "live comments" can use the Zoom meeting platform by clicking on the **"View/Participate" Live on Zoom** link below that is on the line with the meeting date and time. All participants will be muted upon entering the meeting. To speak, click the "raise your hand indicator" and you will be called on by the host of the meeting during the public comment section.

Members of the public who wish to view the meeting, but are not participating, can also view the live meeting using the Zoom meeting platform by clicking on the **"View/Participate" Live on Zoom** link. **Some meetings** can also be viewed live on the City of Norwalk YouTube channel by clicking on **"View Only" Live on Youtube**. This stream is delayed by approximately 20 seconds, and not every meeting is streamed live to Youtube.

Members of the public who wish to provide public comment are encouraged to submit those comments to the meeting staff person (mdeluca@Norwalkct.org) via email in advance of the meeting. For these comments to be read into the record, they should be submitted at least three hours in advance of the meeting start time.

Next Meeting: October 26, 2023 at 7:00p

CITY OF NORWALK
FIRE DEPARTMENT

121 CONNECTICUT
NORWALK, CONNECTICUT

AVENUE
06851

Date: 09/19/2023

To: Public Safety and General Government Committee

Subject: Action Item Request

Project: Station 3- Apparatus Floor Replacement

Authorization

Authorize the Mayor, Harry W. Rilling to execute a funding agreement and any other documents necessary to receive \$400,000 of funds from the Third Taxing District to be used to make improvements to leased property at 56 Van Zant Street necessary to accommodate new fire apparatus.

History

Corporation Counsel and The Third Taxing District (TTD) have finalized a contract enabling the TTD to grant the City funding up to \$400,000 for replacement of the apparatus floor at Station 3. The TTD owns and leases the building to the Fire Department, and the Fire Department will be managing the project.

The floor underwent modifications in the 1980s to accommodate the newer apparatus of the time. Since then, the apparatus has gradually increased in height, causing clearance issues. The current apparatus required leaf spring modifications in order to fit in the building. Also, the newer, heavier apparatus has caused load-capacity concerns and capacity ratings cannot be obtained for the current floor.

The proposed floor replacement will lower the existing slab, providing adequate clearance as well as provide an Engineer designed and load capacity certified apparatus floor that will be able to safely house our newest and future apparatus.
