CALL TO ORDER

Chief McCarthy said that the Mayor had been delayed in Oklahoma and Commissioner Coffey was delayed on I-95.

Chief McCarthy said that Mr. Norm Bloom and his son had helped with some repairs on the Fire Department. Lt. Morrisette presented Mr. Bloom with a plaque in appreciation of his company's work on the fire boat. Lt. Morrisette explained that this had included installing bilge pumps and fibreglassing the lower portion of the hull. There is also a water pump that the department uses for drawing water to put on fires. Mr. Bloom's company retrofitted this so that it can now can draw water through the hull for putting out fires. All the time and materials for these repairs were donated by Mr. Bloom's company.

Due to the lack of quorum and the issues that needed to be discussed, the Committee then decided to cancel the meeting.

Respectfully submitted,
